

## ☆ Holiday House ☆

This is a lodge located about 6km north of Marina. It may take about 20 minutes by bicycle from Marina. On the second floor of 2-story building, there are 4 units available during the regatta. On the first floor, there are two restaurants, a bar, beauty shops and some clothes stores. A building manager also runs a shop here.

This is the lodge built with owners' wish, hoping to offer more reasonable and comfortable accommodation. In the vicinity, there is a lovely beach, so many of water-sport-lovers visit here, not only Japanese but foreigners.

Each unit has a kitchenette, a small fridge, a bathroom and an air-conditioner. You can connect internet with your PC. There are flooring area and tatami-mat area in a unit. As there is no bed, you need to put Japanese futon bedclothes down directly on the tatami-mat area to sleep. This mixture of flooring and tatami-mat area is the recent Japanese style!!

Washing machines and drying tumblers at shared space are available at ¥100.

A convenience store is close. It must be very comfortable to stay here. When it rains heavily, however, it might be a bit noisy because it has a slate roof.

Each unit can accommodate 2-4 persons. Room charge varies on number of persons per unit. It is ¥6,000 per unit for two persons per night, ¥7,000 per unit for three persons per night and ¥8,000 per unit for four persons per night.
